

great value fares

Most people find our day to go ticket the best option, as you get unlimited travel within the area selected, saving you money if you make more journeys during the day, or want to pop out in the evening

There is still the option of paying for a one-way ride, where you know you will not be coming back the same day.

If you travel most days our longer term tickets will save you money. With all these tickets you get unlimited travel within the area selected, so you can travel in the evenings and at weekends at no extra charge.

Buy a weekly ticket for any 7 consecutive days, or a 4 week ticket for 28 days consecutive travel.

You can also top up your iffcard at a Paypoint outlet in multiples of £5, up to a maximum of £50.

If you have a Cardiff Bus day ticket or season ticket, you can use these on Capital Links too - just show the driver or place your card on the reader.
