

# park&ride at Cardiff East

Cardiff is a terrific city, whether you work there most days, pop in for shopping or like to take advantage of all the great events the city hosts.

But more and more cars clogging up the city centre streets can spoil the very place we've come in to enjoy. So, use park & ride at Cardiff East.

It makes a lot of sense - plenty of room to park and it's great value for money. The shuttle buses will whisk you in to the city centre in about 18 minutes every 15 minutes.

They drop you off and pick you up again right in the heart of the city centre - what could be easier?

If you work at Cardiff Gate Business Park, the buses can take you there too.
