## Humshaugh

During the Napoleonic Wars the paper mill on the River North Tyne near Humshaugh was where paper was made to print fake French money in a bid to flood France with forged notes, aimed at causing a marked devaluation of French currency.

Humshaugh was also where the first official Scout camp was held in August 1908. The Scouts took the train to Chollerford, the nearest station and walked up through Walwick and the woods to the site, known as Look Wide!
